

OBSERVED precedents for LROC imaging (research/orbiter_latency.csv): a small, selected sample, not a forecast

■ planned impact: first documented post-event NAC image
 ■ natural impact (context): first documented post-event NAC image
■ uncontrolled impact: first documented post-event NAC image
 | first public release (days after the event)
■ soft landing (context): first documented post-event NAC image
 ★ identification released (Vikram, day 87)

OBSERVED (LROC posts, NASA releases); day counts assume 12:00 UTC where times are unknown
