

Conditional reachability: hours in the impact domain when a pixel is on the ground track (polar 100-km orbit), dark, Earth-facing, phase 3-65 %, and observable
a-c: flash geometry and a Turkish site; d: flash geometry and at least 3 configured sites anywhere; orbit node epoch 2027-09-01

CONDITIONAL on declared orbit-plane families - the real AYAP-1 orbit plane is unpublished
